**Parent Case Text**

Please find and file of record, reply concerning the Office action Jan. 22, 2009.  
We have reviewed our passed communications and the Office action of October 16, 2003.  
Somehow we applicants misunderstood and became side tracked in the wrong direction.

"With" what ever help we can get from the Office, we will now try to rectify the mistakes we may have made, as best we can. We have again made amendments going back to Oct 16, 2003. It is our hope we have did right this time and soon be granted a Granted Patent.

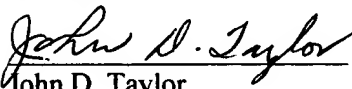

At this time we would like to thank the Patent Office and the examiner Edwyn Labaze for their help, guidance and patience. We are not versed in the patent rules and we are thankful for the help they have given. Please forgive us when we fail to understand for the things we don't know.

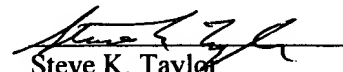

**Amended Application**

This application is a continuation in part of and is based on U.S. patent application Serial Number 09/973,626 filed January 10, 2002, now U.S. patent application number 09/973,626 published December 30, 2004 Application No. 20040267622 A1, entitled "Taylor Corp.
